Full Stack Developer with a backend focus: APIs, automations and business systems with Python and React. I currently build and maintain the CRM at Arrendamientos del Norte.

Experience

Full Stack Developer (Contractor) — Jun 2026 — present
Arrendamientos del Norte

- Development and maintenance of the company CRM.
- Better-organized clients and much easier follow-up for the team.
- End-to-end features with FastAPI, PostgreSQL and React.
- Internal process automation and API development.
- Go-to person for all CRM development.

Software Development Intern — Mar 2026 — Jun 2026
Arrendamientos del Norte

- Built a CRM with FastAPI, React and PostgreSQL.
- Built an RPA system with Python and Playwright.
- Automation through web scraping.
- Adobe Illustrator integration.
- Cloud spreadsheet integration.

Projects

StudyPass
Attendance system for I.E. Jorge Eliécer Gaitán Ayala with barcode scanning, reports and an AI chat. Backend in a team of 3.
Flask, Python, PostgreSQL, LangGraph, OpenAI API

Business CRM
CRM for Arrendamientos del Norte to manage clients, properties, appointments, follow-ups and owner acquisition. Full stack development.
FastAPI, Python, PostgreSQL, asyncpg, React, TypeScript, Vite, WebSockets, PWA

Payment Comparison
Financial audit tool that compares Excel payment plans installment by installment between two systems and generates a report of the differences. Full stack freelance project.
FastAPI, Next.js, React, Tailwind CSS, Python
